

Power / SWR precision measuring coupler

0,4 ... 70 MHz

100mW ... 2kW

Eagle - schematic and layout

all layout and circuit data available here may be used by radio amateurs for purely private purposes, the GNU-Public License V3 applies mutatis mutandis. Above all: whoever uses these data for own projects must in turn make the resulting documents available to the public again free of charge !

There is no guarantee for the correctness of the data. Everybody has to know himself what he is doing and adapt the files to his own requirements if necessary.

Also it is to be expected that I will make changes and improvements to the boards again and again in the course of the time.

Eagle schematic:

miniswr.sch.zip

Eagle layout:

miniswr.brd.zip

Gerber data:

miniswr_v3.zip

PCB number: 10820
