

1kW LDMOSFET power amplifier for short wave

PCB manufacturing documents

EAGLE original schematics and layouts (Eagle V7 and higher):

board number: 10803

Schematic

layout

Gerber data

Source of supply and license

all layout and circuit data available here may be used by radio amateurs for purely private purposes, the GNU Public License V3 applies mutatis mutandis.

There is no guarantee for the correctness of the data. Everybody must know himself what he does and adapt the files if necessary to own requirements.

Also it is to be expected that I will make changes and improvements to the boards in the course of the time again and again.

Ernst, DL1EV, runs an online shop and offers boards for my projects on his own responsibility, I am neither commercially nor financially involved in any way.

Data of Ernst:

e-mail: dl1ev@gmx.de

Web: www.dl1ev.de

For inquiries please indicate above board number !
